JP3 EVO

**SCANNING MACHINE
TEXTILE PRINTING ON PAPER**

JP3 EVO

JP3 Evo is the right choice for those who want to make a cost-effective investment. It is an entry-level, durable, and affordable printing solution offering a good performance. JP3 Evo has 2 Kyocera KJ4B printheads allowing it to benefit from Same Print Result (SPR).

SPR means being able to choose any MS machine with the confidence that it can reproduce the same coloristic results, using the same printing conditions.
